May 1933, Bucharest
PART I - A

Comrades,

The appeal made to reorganize all the nests we have responded in overwhelming numbers. "Ancestral lands" will publish on behalf of all nests, giving them proper approval. You are all over the country and from all walks of life. The majority of peasants and workers.

POINT 1. Now you all know what a nest: a group of men under the command of one man. Nest has no committee. He has only one boss who command a corresponding bearing mail, a cashier to collect contributions and an email which links to other dwellings or county chief. All of them, like real brothers, listen to their comrade, who satisfies the chief function of the nest. (See "Legionnaires" part "Legion of the Archangel Michael", chapter "The beginning of organization)

POINT 2. Debt correspondent, courier and cashier nest.

Correspondent, Head of the orders you the correspondence nest nest. He writes and sends letters.

Courier linking members of the nest, or between two nests, or between different nest and superiors. He brings packets with brochures, magazines, and leaflets, newspapers, etc., the station or the post and distribute to members. Orders is the head of the nest.

Treasurer takes care to collect an amount as small (at least one lion per month) from each member. Or other aid. He also sits on the orders of the Head of the nest.

POINT 3. The six fundamental laws is the nest. Old have been treated extensively nest directives (Directive abolished by the appearance of the leaflet to all).

They are listed here:
1) Law subject: Legionary be disciplined, because the only way you win. Follow your head for better or worse.

2) Labour Law: work. Work every day. Work with love. Reward your labor or does not win, but pleased that you put a brick in erecting Legion and Romania will prosper.

3) The law of silence: talk less. Speak to be. Talk enough. Oratory oratory is your deed. You făptuieste, let others speak.

4) Education Act: you have to become another. A hero. In all your school make nests. Legion knows well.

5) The mutual aid: help your brother fell into misfortune. Do not let him.

6) The law of honor: go only ways of honor. Fighting, never be cowardly. Let others ways infamy. Rather than beat a disgrace, better to fall on the road fighting honor.

POINT 4. Micu flag it's nest.

Each nest has its small tricolor flag. Silk canvas. Blade size 40 cm to 40 cm. Prăjinii 1m length and 10 cm. Above a cross. The canvas will be written:

Nest ...

Garrison ...

County ...

This small flag is not removed or a time out, he stays at home, at the nest. The blade's Place "star" one, two, three, ... up to seven stars.

The flag is a flag with seven stars loaded with all the glory. Stars are given only the head of the Legion, after the proposed county heads, or on its own conviction.

A star on the flag means a great battle that took part in a nest, the nest was awarded battle was fought with dignity.

Because the flags are all the same and made from the same cloth, good nesting bosses order them from the head of the county, and this order them from the Centre in Bucharest.
When their nest flag? A nest can not entrust the flag until after 6 months of regular activity.

Therefore, a nest can not do without the head of the county flag.

Section 5. About reports.

At the same time the head of the Region, a copy of reports submitted by county chiefs.

POINT 6. When collecting nest.
All nests of Legionnaires across the country gather every Saturday night, the day is Sunday, so everyone can at least delay the advice. But if necessary he can gather any time you call your boss, any day of the week.

POINT 7. Life nest.

Nest is a church gathering. Entering the nest you strip all the petty issues and your thoughts clean one hour worship the Motherland. Clock time is the nest meeting of the Homeland. Harmony must result not only in friendship to those gathered, especially from their ideal community. There will ascend to the nest prayers to God for victory Legion, will sing songs sent by the Legion, will speak about the dead: martyrs, heroes who died for the Legion and Legion comrades who died in faith, friends, parents, grandparents and ancestors, rechemându their spirits up.

In general, the nest will not give rise to discussions fiery, violent, contradictory. As little talking as much meditation, nothing to disturb the silence and majesty of understanding.

The exercises will be complete silence.

If the head of fixed nest meeting at 9, then all must ponder affairs so as not to come either too early or too late. One another not to wait. Legionnaire must be man of my word. When told to take just one word for her. The country is littered with those who say many words, but do not ever take them. When you promise something, think carefully. If you think you can not, Green said, because it's beautiful.

Legionnaire's nest when it comes to be cheerful. Do not start with the feud going, evil, because the nest has not allowed anyone to argue. When you have a liking for Legionnaire feud, to burrow between enemies.

Great things are good and cheerful, because where there is God's good heart, and where the heart is bad, there to put the devil. So where does evil heart hath no headway. All going backwards. About the man who walks with heart and say that no păpușoii not grow on the field.
POINT 10. MEETING COMMENCEMENT

At the time decided, after members gathered nest, nest stands head and cried aloud ostăşească:

Comrades,

On hearing this signal all jump up. He goes face to the east and welcomes arm outstretched salute the sky, ie the height of the sun and light and that is the symbol of victory of good.

Nest head slowly and said aloud as he repeats all the others:

1. - Let us pray to God.

2. - Let us think about our master.

3. - Let us raise our thinking about the souls of the martyrs:

   - Mota
   - Marin
   - Sterile Ciumetti
   - And all our comrades
   - Fallen for the Legion
   - Or died in faith Guard.

4. - To believe in the resurrection and the Romanian Iron Guard sfârmarea wall of hatred and disgraceful thing that surround

5. - I swear that I will never betray the Legion.

POINT 11. With that head start meeting nest?

What news from the Centre or received from county etc.

What happened to the country.
What happened in the village (village politics), city, factory, college.

How's the different political forces effects: increase, stay, give it back.

As our country goes Legion.

Here the news brings each member of the nest and he knows the buzz.

2. Order arrived.

What orders were ever given. What does the other Legionnaires in the country. How goes the fight Legion.

3. Reading "ancestral lands" and the other sheets Guard.

"Ancestral lands" should be read in its entirety. In the true spirit he is Legion.

All orders given by the center and the best information on the movement across the country. The Guard also will read local papers.

4. Education members.

Legionnaire must know: The Legion will conquer in the end all parties, and will put as many obstacles in their path.

That all Legionnaires are ready to make any sacrifice with joy. That every sacrifice is a step towards victory.

Ie the Legion has a program which will be published in due course.

That through this program will rebuild the country.

That the Guard will make this rich and beautiful country Romania.

That the Guard are called by God that after centuries of darkness and oppression of the Romanian people to sound the trumpet of resurrection.

Head of the Nest will seek to plant deep into the soul of each member nest faith in God, Fatherland and mission of our nation.

POINT 12. What can discuss nests.

In nests where time is also discussed other issues.
Here are some titles of talks village:

1) How might get a better harvest (wheat, maize, vines, etc..).
2) What are the results if fattening land?

Chorus.

Nests composed of younger Legionnaires Legion marches will learn and sing at the hearing.

At the end of the hearing decision is taken. Every meeting should end with specific decisions, ie to show what has been sitting next to each legionary.

Nest work: a) after receiving orders from commanders and b) on its own initiative (decision on who takes one). Head of the nest may take the lead in several directions.

1. Increasing Organization, or making nests in November.

2. Fundraising through festivals, sales brochures. (Apart from raising money, which is not permitted among our member organizations).

3. Dividing the world nelegionară after a well-established literature Guard.

Each nest has a number of people known before it.

They may be friends, indifferent or hostile. Nest is a list of their names and their address, and then intends to gradually convince them to grow in faith Guard.

Then send each soul food books, magazines, articles, photos, choirs. Well studied human hearts and minds as they read. A man can to influence a specific book, an item, some stickers, magazine. On the other, other. Therefore nest should consider not to throw anything in the wind.

Enemy must give books? Yes. Because after you read it today, tomorrow, tomorrow, will begin to falter. And the enemy will be defeated is shaken.

This spiritual food is not sent only once. Nest is careful to make chicken wings.

When the soul had grown in faith, filled with gratitude when they come, they'll look and you will ask what to do now? I'll answer: "Do what I did and you."

Feed others and you, as you and I have fed you."

Material (brochures, books etc.), Sometimes sold, but most times you will find home free man, given its poor nest. And without knowing who sent them.

For nest gives the effect intended and does not say who sent. Only at the end is known. A nest will feel great joy for everyone that I will bring the world of hostility and it will bring the world of faith Guard.
Quote nest "Vanguard 13, no. 3 "for one month and a half volumes divided by 37" for Legionnaires "and 15" Wooden Skulls."

Nests of churches, children, rich or poor legionaries each for power, can do this work for the Legion giving great results.

4. A nest site can take the initiative. That is to repair a broken bridge, a ditch, a road, a fence to help a sick child, to repair an old house or a widow. To care for abandoned graves.

So each session will make it imperative nest head question

What shall we do to increase our organization?

How can we help the Legion?

Each member of the nest one is thinking and saying to the village we do in our nests, or in college, where students, etc..

Another says: in the neighboring village there is no nest to go there to do. Another says: money to help the Legion. For having money, the legionnaires will equip the organization with everything he deserves to fight and to tell Legion to see where we distribute (to support a road, when buying a van, brochures, etc.).

The work of each nest is of great importance.

Can not be formed as a nest and then do not work nothing, not to give any sign of life. Nest not working, not moving and no sign of life is passed in the catalog of the Legion as "nests death."

POINT 14. About the initiative of the Head of the nest.

Initiative is the most beautiful flower that a commander can wear.

Head who takes responsibility initiative should know that it can bring increased organization, but can also bring great harm, as a boss in a good or bad uses.

Not allowed in particular:

a) To print something on behalf of the Organization without the approval of the Central Bureau of Media Guard.

b) a written order or letter with content foolish to be interpreted by those to whom evil is addressed, or by opponents.
c) Not to put the unit in action and disorderly, feasts, parties etc. or scandals.

d) Not to treat or entering any combination of politics with other people groups without the direct approval of the Head Guard.

e) Generally, a boss, as a Legionnaire, you must be careful not to make any fact, not be placed in any action which might jeopardize or degrade damaged Legion.

When you take the initiative?

a) take the initiative when there is no specific order given by hierarchical superiors. If an order to execute the order.

b) If in the meantime the situation has changed, the head of the nest, like any commander's responsibility, take action on their own initiative, but judging by the entry for the organization to emerge as well.

c) If by chance there is a greater place Chief legionnaire as head of the nest, the nest is no longer head the initiative. Command, initiative and take responsibility Legionnaire greater degree.

Apart from these cases provided, the head of the nest is a large initiative.

He will take decisions on their own, in good agreement with all members of the nest, in order to serve the cause of Legionnaires. As soon as he took an initiative, a report to the Head of the garrison. After serving it, reported back: "I would like to inform that the decision taken by us to run ... I brought it out today, enjoying a day that I brought to an end."

Legion Head Weigh Legion's a boss, according to his discretion. The best leaders and best nests are those that best take initiatives and take them out.

POINT 15. About the execution of orders.

When a Legionnaire or a nest receives an order, is a matter of honor to execute, passing through fire and water, if needed.

Then measure the worthiness of the Guard.

When the chief gives the signal for a battle Legion Legion (as for example: buying a van, removal of a road, buying a printer), like bees nests, competing diligence and speed into each other, each must come which can give.
Fri Whenever such occasions, must compete in a mad race toward true legionary victory all the nests.

How would it be possible for a nest to be left out of the fight may not have brought him a little help as both small sacrifice?

In these fights you can see who deserves to ascend to the new world Legion, and who must remain where it is.

POINT 16. Closure of the meeting.

Members nest rises to his feet facing east. Welcome with arms stretched toward heaven. All repeated the chief nest: "I swear that I will never betray the Legion."

Then divide the legionnaires fun thinking about the decisions that have to execute. The next meeting will first see how to execute the decision.

POINT 16 BIS. Legion March.

Sundays and public holidays nests all categories: Brotherhood, cities, etc.. need to get used to march off. We do not know the country. Some do not know any nearby village.

Holidays, rain or fair weather, winter or summer, to get out in nature. Romanian territory to become a hive in which to meet thousands of nests on all roads running in all directions.

During the service at the church to stop by. To stop the comrades in neighboring villages.

The march is healthy. March repauzează and restore nerve and the human soul. But above all, the march is symbolic action, of exploration, conquest of the Guard.

Mars is in order: Step male.
PART II - A

ABOUT ORGANIZATION

How many types of nests are. Classification.

POINT 17. Education and family nest nests.

Each member of the nest, after staying in a nest and more time making education Guard may become detached from that nest to another nest in form and he will be chief. If a nest is about at least three members and make each nest, the nest old nest becomes higher.

A higher nest can spread if you can do in ten villages in each of them one new nest. Everyone is free to lie down after the power is that it has, so that a nest is making several nests, all of which form a sort of family. That first nest that was formed and all the others who were born from it, form a family. Each family has its nest of a head, but greater than all is the head of the first nest.

POINT 18. Litters assigned.

Nests in one village, community, city, factory, school, etc., must have between them. Why? Because it does not collide with each other on certain issues (some have an opinion, others disagree). All Legionnaires will have only one opinion, one mind and one soul. We must therefore all be one boss.

Who is the head of a village.

If a single village is a family of nesting, the village chief is the head of Legionnaires' first litter.

If there are two families of nests, the village chief or head of legionary garrison will rotate each month.

One month will be head of a family head legionary garrison, a head of other family nest month.

If there will be three or four families each nest will return a month.
Heads of changing the garrison, made a record of delivery and receipt of order, they send the head of the county to know who has the command that month.

Later, when nests are proliferating, are chiefs of sectors to link and take care of all the nests in the region. Head of the sector is called the central management of county chief Legion following the proposal. He will recruit the most worthy chiefs of the garrison.

In case of victory churches, a primary common area will not be leader or head of any nesting Guard families, but will be most worthy man who will have the Legion in that community. He will however be under the control of Legionnaire head in that community.

Guard garrison chief or head of a conference call to higher nest of nests when the heads subordinate to inform how's it going to work, communicate to incoming orders or take any decision. On this occasion the heads of nests is teaching school, that school to learn the head of the Nest: organization, legionnaire spirit that wants and what makes the Legion a chief debt Legion, all learned from this booklet.

County Police chief calls her at least once every two weeks subordinates (heads of units, F. D. C., cities, sectors, Staff, etc.).

The head when he calls people to give subordinate directives, or make them Legionary school, is not called to visit and do not serve a glass of wine as a democracy in the world.

Like a regimental commander who is calling before the battle for junior officers to give them orders, so the present head of Legionnaire.

We stand at attention. It will be hot, the symbol of power. The other, in a semicircle in the correct position, attentive, serious, aware that at that moment do a job of their nation, as that makes the priest at the altar.

They will be hot. Make the call, it will give the report. It will play. Follow the same formality as the opening and closing the nest meeting.

To legionary body formations. When an officer arrives, the body will be arranged in square Guard or lines through the flank platoons.

POINT 20. An important role of heads of legionary garrison.
Chiefs Guard garrison common to have a great importance in the organization village ie after the nests of Legionnaires have multiplied, garrison leaders come together and separate the better understanding of some nests of young people from 18 to 27 or even 30 years.

These nests young, all in one place, will be called "group of common Legionnaires 'X'.

At the top of these nests Guard garrison chiefs will make the best head of nests (considering who made most nests and who has many qualities of head) and will then require confirmation by the Head Guard.

If there are two good, will also be heads of groups such churches, one month to the exchange. They obey the orders of the Head of legionary garrison.

POINT 21. Another role of the chiefs of the garrison.

It's to ensure that it does not happen any misunderstanding between the legionnaires. No ambition but to conquer. He will seek to reconcile any misunderstanding very wisely. The Legion is the largest head, not stubborn, but those who know how to obey the sacred interests of churches, to sacrifice of his beliefs, from pride, to victory.

POINT 22. How many types of nests are in the Legion.

1) nests called "Brotherhood of the Cross". Includes only youths 14 to 20 years in different schools. FDC are just the cities.

The role of these nests is to make learning Romanian Youth namely:

a) Christian education: they must recognize, to love God and to behave as Christian teachings.

It is immoral to kill a lot of soul child literature. It must be safe to sip this poison.

b) Education in: Romanian young man must love his motherland, the Earth and the King. No country is like a chicken without a nest.

He must be free of communist literature that stands against God, against family, against property, against Army.

c) Social learning: the soul of our youth should be cultivated and maintained feelings of Christian social justice and equity and the thirst for creative work.
d) Physical education: the child must be sturdy and healthy body, because he will be the soldier of tomorrow who will defend this land. (Legion Athletic).

e) Health education: it must be guarded by numerous diseases, especially those who secațuiesc venereal limp all youth. In a word, we must care for the Rumanian tomorrow, which will bear great responsibility on his shoulders Homeland existence.

POINT 23. 2) nests of girls (God), also known as "cities" when they are made up of students from high schools. All the same purpose of education. Tomorrow they will be mothers. And the child as it grows will be his mother. They help the Legion to work and spread their ideas Guard.

POINT 24. 3) Body Guard: 21 to 28 years. All nests with members in that age group the Legionaries body form.

Exception and is allowed under that age for members of their nests in villages where there is Brotherhood of the Cross.

They are most active members of the Legion.

In addition to education, they will run and spread our beliefs. They spread most soul, for they where.

They make policy and politics is a battle in which defeat the hardened hearted best, most determined, most patient, most disciplined, the most active.

Education creative act. He Legionnaire, will be that by his own work will build the new Romania, not to win something, but only the strong desire to see the country.

His education must make the sacrifice, not gain, since only sacrificing all we could have a rich and beautiful country.

His education must be made severe discipline, efforts to persuade him because only united, disciplined, of all may have the desired effect.

POINT 25. 4) Students at a university Legionnaires is organized as follows: all the nests in a county student group formed Legionary

Students, bearing the name and standing under the county's most worthy Legion.
All student groups attached to a university district, formed Legionary Student Center, under the command of a Legion officer, aided by all heads of Legionnaire groups.

Heads of groups and student centers Guard are appointed each year by the Grand Council Legionary University, working under the chairmanship of the Head Guard.

This council is composed of the President Guard university centers and five heads of each Legionnaire groups. Students at each university in alphabetical order automatically elected county each year. In cases of special celebration, the council may take part in all student leaders Guard units (nests, groups and centers).

A legionnaire officer of any unit can not occupy the same time a service in any of the committees of the general student organizations, such as: clubs, societies faculties, centers, etc.. For Legionnaires delegate these functions under his command, or you will need to enter personal Guard will give another command.

POINT 26. 5) political organization itself: older people are nests, which they will do so Legionnaire education will act politically, protect and guide the younger ones.

The leadership has the political head of the county, which oversees and directs the work while other Guard units.

POINT 27.

All these counties are in each district headquarters and the center of their specials

Thus, in each county are:

- Head of the Brotherhood of the Cross (FDC);

- Girls and ladies head fortress.

- Head of Legionnaires Corps.

- Head of Corps Workers

- Head of Political Organization.

All these are part of the county as of the staff, respecting and listening to the head of county political organization.

At the center are:
- FDC Command
- Command fortress girls.
- Legionary Corps Command
- Command Corps Legionary Workers
- Student Body Legionary Command
- Organisation of political leadership

All of them are under the direction of the Head Guard.

POINT 28.

As a general rule, all these changes with the year heads. Heads of political organization may be two years or more with the approval of the Legion.

Each head takes care of time to form replacement.

Former heads go into a higher situation carefully and have all the guidance and counseling, and supervision of current heads of the good of the whole organization. They attend every meeting and always give up their views.

They meet in particular the role of judges for any misunderstandings or conflicts arising between the legionnaires, seeking their wisdom and experience to reconcile things and keep the biggest mistake organization: misunderstanding, division.
PART III - A

Tips for the heads of the nest under their command that unit can go wrong.

POINT 29. 1) How should be and behave a boss.

A leader must be wise, well you should think about a decision for it to be good. Judgement must be taken quickly and be completed.

You must be gentle and love to people under his command.

Must be cheerful, so must appear before those they command, not dark bitter angry.

Should be straight with the Legionnaires and worldwide. No opponent can not do injustice. Will fight with him, he will win, but the ways of justice, of morality, not by cowardice or deception.

You must be brave and determined in distress watch. So for instance, if you see a man in distress, a Legion of Honor duty is to jump to save, confronting danger. Ex.: Fire, drowning etc.

Need to share joys and sorrows with all his comrades. In any occasion in the world, not only in Legion, he must choose the most difficult place. A Legionnaire înghesuiește not to grab the first seat at the table or the best bed to sleep.

Must be skilled, ie an order to take him to a conclusion, employing the most intelligent ways.

You must order and lead to clear and people to victory.

Do not speak ill of his comrades. Do not allow him to speak ill of others.

To know how to keep harmony in the unity drive. It is of paramount importance. A leader should have all the qualities of the world and if a control unit which is strife, dissension, misunderstanding, it should be immediately replaced. There are some managers who take your order as soon as a unit, the unit begins to disintegrate.

Be very courteous to everyone. Do not startling the world because it attracts rather than remove it.

Must be sober at all. For example: can not conceive any head or a drunk Legion. Legionnaire can spend, but not drunk.
To be a man of my word.

To be an honor to draw his esteem for all people around.

In short, to behave in a way that everyone can say: "In a Legionnaire you can trust, for one thing got a Legion of him to complete it."

Head Guard is a funny man, who in any circumstance no matter how hard it is, comes on top. He must be victorious. It will fall, he will rise again and will win.

Only endowed with such qualities, a Legionnaire will head the school litter and by example, every Romanian turn creating a new soul, a true character who will know to prevail in all circumstances and that the country will be proud.

POINT 30. 2) Why should keep a Legion officer.

a) Do not be lured into leaving. Opponents have two ways of fighting. The first way to attack openly crush us. If they see that we survived and I was crushed, then try the second way: enticing some people to our division.

An example: the Vacaresti of March 28, 1924. This process aimed to crush us. But we have resisted, we were defeated, that I was acquitted.

Different people have claimed high-ranking friend with us (after trial), call us at the table, we praised: that we are good, we're talented, so we'll go far.

At the same time trying our division: speaking ill of other comrades.

We got this notice of appeal and what I heard, I came and we said to each other. And the attack failed. And in November, after 10 years, we are so united as in the first hour.

Now against the Legionary Movement, uses the first means is: we attempt to crush opponents. When they see that we can crush it but will try the second way: by grooming our division.

Do not see how they split all parties in Romania, all the grooming liberals in two averescanii into two, and now, finally, national and Peasants are ready to be defeated and broken in two. They will try and November. But we will be ready and we will win.
POINT 31. What should a chief Legion, when he feels ademenirii attack.

Immediately report to his boss and head of the Legion and openly say it is part of the nest. That is to reveal the intrigues of enemies.

POINT 32. b) There is the Legion "I was upset and leave."

If you argue with someone with a comrade, legionnaire must reconcile. In any case, cannot leave the Legion on this ground, because it can not be mad at the Legion, that the fight for salvation of his country. And if they leave, his mistake is very high compared to all Legionnaires, Legion flag girl and girl of his people.

One can leave the Legion is no longer believed, but not when they get angry.

POINT 33. c) Coping with other heads Guard.

It is a big mistake as a leader Legion of envy, begin to cry in front of people from the nest or village, a colleague of his. This leads to the division in two of the Legionnaires, the struggle of the juveniles, the victory of the enemy.

This is so bad that the Legion considers such acts almost like a betrayal. How? For your ambitions to destroy the Legion?

Even if they are personal enemies, the legionnaires have become no longer fight, not to mention the bad, fighting each function that has faithfully served the cause legionary victory tomorrow.

POINT 34. d) a negative spirit.

Another disease to be a head Legionary shield and keep everyone in their organization, which is very dangerous disease because it brings disagreement within an organization and especially for the large wings that cut incentives, is critical. Criticism in the form of eternal discontent.

There are some people that whatever you say or whatever you do, they are always dissatisfied and always have something to say. They take place every attempt creative people actually cut momentum.
Our organization is a critical organization, the negation, but an organization with the spirit of contention, the combativeness, the offensive.

Let us be critical to historians, we now have to conquer and was done as much and as well.

POINT 35. e) All heads of all Legionnaires Legionnaires and a common, factory, etc. must agree on all issues of concern to our organization.

Ex.: Faculty of Letters in Bucharest have made choices for President and the Committee. Legionnaire X, with his comrades have, legionaries, the candidate on a list, and another with another group of legionnaires legionnaire ran another list. Legionnaires broke in two and fell to the vote.

Legionnaires will not make such mistakes. They will go together even on a bad road (wrong).

Because the road is the worst dezunirea.

On the other and would go to hell if Legion band, the will be united, all hell will win and then will return back to winning. Ex.: When choosing a primary joint chiefs Legionnaires decide whether to vote on a particular man, there must be Legionnaires to vote on another or start with the criticism.

All in a thought and a soul.

And opponents say: "Let's put our best with the Legionnaires, they are all people of one piece, determined and united. Who will vote them out one mayor, go for it all to one side. "
PART IV - A

Recruiting members

POINT 36.

Head of the nest when they recruit members, must take care: seeking the evidence most worthy and developed sense of dignity. Necinstiţii, hârţăgoşii people scandal, trufăii, lăudăroşii, who filled her fricoşii, cowards, must be left outside the Organization.

And to be sure that none of the above items will not be able to enter the Organization number in any village Legionnaires could not be more than half of the villagers. Once the number of Legionnaires reached, no one organization can receive, leaving only to get as far as seats are free.

In any event, the organization must be guarded by people who can not live without arguing.

Once a member of the nest can not be understood by other members it will have to leave the organization, înaintându his resignation.

Better a few, living in a full brother, in perfect unity, more than arguing among juveniles.

Head of the Nest will seek to keep the organization sent agents provocateurs or spies, crooked politicians, or profession.
PART V - A

Guard Uniforms

POINT 37.

Across Europe, there is a trend to introduce a soldierly virtues in public life of countries.

Instead vorbăriei and long speeches, people want short sentences, clear and precise as that of the soldier.

In place of doubt and lack of courage today, people want: the decision quickly.

In place of democratic committees, which discuss, argue and do not take decisions, people want discipline leader and all. (It is understood, aided by committees set)

Rather than discourage, people want reliable, fun, pride ostășească.

In place of laziness, people want work from morning till evening, everyone, not just three parties to work and some only to the party.

Instead of lust for gain, the desire to draw a benefit from the policy, people want to sacrifice the country as a soldier's sacrifice on the fields of battle. He does not seek to win anything, he gives everything, work, soul, life for his country. It deserves us. If you would give all the people who make policy: work, soul, country life, the Romanian country would be better! Here's what will make Legionary school.

In place of discord and strife, we are soldiers and comradeship beautiful perfect as a band unit, the whole nation. All have a single thought: Patria, one flag, one leader, one King, one God, one will: to slujii them faithfully until death. Legionnaire uniform and made her back because he sees all these great soldierly qualities that make up nations, and winning, against all difficulties. Uniform is green shirt, belt, diagonally.

POINT 38. Prohibition of uniforms.

Government uniforms port prohibited by law. Once the law passed, we must obey. Legionnaires will not get out in public dressed in uniform.

But we do not give up on her. We'll make them wear uniforms and holidays only and only in our homes where we are masters and free to dress as we want.
We will gladly take, waiting time when lawmakers will be convinced that these uniforms are not a danger to the beautiful country, but on the contrary, are good.

Should there Legionnaire who's house to not have uniforms to wear no holidays, you will need to do honor to a guest, guest, dressing in green shirt.

It will be a feast in the house of a Legionnaire when he and his family will take in the beautiful green shirt, symbol of spring Romanian Nation.

POINT 39. Degrees and functions.

Degrees

The newcomer in the Legion, is called member.

After three years, it may be promoted to Legionnaire.

Next: - Instructor Legionnaire

- Commander-in-aid

- Legion Commander

- Commander of the Annunciation

- Senator Legion, honorary nature.

Features - Head of the Nest

- Head of the garrison

- Head of the net

- Team leader, camp site, head to the body Legionnaire

- County chief

- Head of region

It is imperative that the function to be occupied by one degree. The function gives honor degree.
PART VI - A

POINT 40. Camaraderie, discipline and confidence in chief.

An organization can never achieve victory without unity. Organizations shaky drive, most times an hour break before the victory in two (ie it breaks the enemy's plots) and take the fight between them. At that moment everything is lost. One thing remains: the victory of the enemy.

This is why any organization needs to ensure unity. It is achieved through two means:

1. the camaraderie, the force of the soul, which unites in a holy brotherhood of all fighters
2. through discipline, external force that harmonises all wills to achieve the same purpose.

A chief legionnaire, so it must be disciplined, to have confidence in its leaders.

Camaraderie, confidence and discipline officers that make up the first two inverted wine, the third, discipline comes from the top down, so that the unit is ensured, even when the items below could be other views or opinions stated. Therefore, education as a discipline remains a major safety valve to ensure the unity and thus the victory, when other means have been exhausted.

Head of the nest will have to look in all circumstances to develop that sense of discipline in any legionnaire and especially to do it by example that will give him.

Do not forget, that discipline is essentially voluntary superior because it requires a waiver of the personality and any waiver for a great purpose is superior spiritual essence.

POINT 41. About punishments.

Do not dwell here on penalties in the world of Legion, because we consider that it will not be needed. In any case, the penalties start at first twit, twit second, third snub. Remove from the field by one month, eliminating two months, eliminating three months, eliminating the six months through to eliminate forever the organization. Also, lifting the command limited or unlimited time.

The heads of county and Guard corps commanders can give punishment to eliminate from the field by two months. Over the Legion can decide only the head.
More importantly, however, is how beautiful, dignified, gentle as a legionnaire receives his sentence. Admit the mistake, nor angry, nor rebels, a run and decided that the dignified attitude and to retake the position.

In any case, to execute an order, is one of the biggest mistakes possible when it is done intentionally. And if it occurs, will have to leave the organization legionnaire.
PART VII - A

Head of the nest during the election campaign.

As seen before, the goal is not legionary campaign but the campaign is of great significance because it is the only way that we make available to law to make any change we want in the country.

The fate of the country for three or four years, and sometimes more, seals on the day of elections. In that hour, the voter is master of the country. What will he decided by his vote, that will be. But for this election day walk buyers silver souls of political parties, with the beverage, food to buy votes. In the face of political bluster, we are opposed to faith in better days for the Romanian people and we will win, as we have won Tutova Neamt etc.

Here's what the head of the nest will have to give great importance to the campaign.

POINT 42. Legionary electoral promises made.

All politicians on the eve of the election campaign, beginning with his promises.

A chief legionary promise what we can do than that. We do not promise money, spirits do not promise, do not function. We do not buy with money the souls of men. Those who come for God's sake do not. But who comes in the name of Satan buys their souls with silver.

A legionnaire will head says

Do not promise money, but we promise justice.

Do not promise you'll do something, but we promise to work to fight for our country.

Who wants to fight for justice and honor in the country, who wants to work for his homeland, who wants to make sacrifices along with us to come with us.

It will be better? Yes. Because things are going in a country like a household. If the household is a good land, rich and endowed with everything deserves a household, and the householder is not worthy, it's wasteful, drink everything, argue all day will ruin the household and the children will live very wrong. They will be bitter and hungry.
But that is changing householder with an honest, hardworking, worthy? Household will soon flourish and all children and they will bloom like peonies.

Our country and it's not a household with good land and rich? With all she deserves? We, Romanians, are not children in the household? And we're not bitter and hungry?

When we changed the household, then we will not be so. This will make the Legion. It will change the household, ie governments and parties will make an Iron Guard government.

This is the only promise that makes Legionnaire on the eve of elections and always.

Item 43. What is our purpose? Where should I go?

Head of the nest must all legionnaires school and tell them that our goal is to choose a number of 5, 10, 20 deputies. He is far greater, far more sacred and more difficult.

We should do that all over Romania to become Legion.

New Spirit Legion should govern. The country should be run at will Guard.

Therefore, a Legion member who came in a county, must run in 5-6 counties to preach the new faith and call to life all the time preparing the Romanians victory.

Some say: then came down to us, but now it's over, I chose him and not coming.

Re: How come, if there are 71 counties with 71 cities and 10,000 common where the chief has ordered the Legion to run to make new nests, organize and prepare for the big victory? And if we go in every municipality, means 10,000 days and 10,000 days is 365 days in each year, almost 30 years. See how hard is that in each community to come once, but to come two, three, or? We would get a lifetime. Legionnaires must understand and explain it all working people. They should enjoy when I see that two years ago I had only organizations in the counties of Cahul, Neamt Covurlui and another 3, 4, and now we have 50 counties.

Others say: "I chose IACA and the guys from the Legion. No they have not done anything."

Legionnaires will answer lawmakers Legionnaires, even if they were 30-40, they can not do much. Wait Legionnaires defeat in the country, to extend from one end to the other and then to see big reforms that will bring. Laws that they have prepared for greater justice Legionnaires are laws that people have long expected.
Who believe in final victory, who knows how to fight to the end, only one is Legion. Only one who did not doubt in his heart will really enjoy the hour of victory, when the Romanian nation will be held by the will of its own, new road, highway, road victory.

POINT 44. Applications.

Legionnaires Members immediately after the elections, received thousands of requests. Some people ask for money, ask others to give them work, others ask for free firewood, others ask earth.

A legionary required.

He says we do not need money or services. Let us just laws in the country, for the just laws we earn money and live through our work.

Legionnaires Members can not run with 2,000 requests from ministries for 2000 people, which to serve, while 14 million peasants, workers, clerks, and wait and wait for their day of justice.

Members will not appoint Legionnaires 5-6 partisans in a village, as do political parties and the poor poorer and bitter lot to draw life from the yoke.

And then if a Legion member a minister prays to make a service for one, two, three, people, the day they pray and minister to turn a blind eye to laws that make it, to cease combat.

Therefore Legionnaires heads will have to explain these things to all people and make them true Legionary school.

They need to tell everybody.

I joined the Legion in November if we do not ask anything for ourselves, but we give. We give our soul, we work, give pain, give everything we have for the holy day of victory of the Romanian people.

POINT 45. What to do and what should be the head guard the nest during the election campaign.

Immediately after the fall of the government, heads of nests will hold meetings with their nests every two days. They also will gather in special session with all other heads of the village or joint nest to study the situation and take whatever measures they think they see
fit for the Legion to come out as well. Also, take measures to execute incoming orders if such orders have come from county leaders.

POINT 46. What will be done before the election.

a) Our school sign with everyone in the village election.

The sign must be done on paper, small, and so the village children to know him perfectly. It will interest the chief county on which page of the ballot is a sign of our people in time and explain whether it is on page 1, 2 or 3.

b) To look for the sign to be made with chalk, lime or pitch inside the village and on the road outside the village.

c) Each person will be entrusted with the nest at least five householders of the village, which seek to convince them to vote for the Legion.

d) There will never believe he will not let other people to believe the lies they will spread the opponents about us: that the list of retired, that the sign is not on our ballot, that we abolished by law organization, that no one has the right to vote with the Legion, who will say something that the Legion will be punished, I was arrested, beaten, killed, shot, etc.. All the lies they tell about us opponents during the election campaign to confuse the voters not to vote in November. Others try to lure the world by claiming that we would Cuzist. Legionnaires will say we are not nor will we be Cuzist!

e) It is very likely not reach the village nor a manifesto of ours, either by lack of funds, either because they were stopped at the post. Heads of nests in the village that will make them what they could: a small hand-written show and will fight by word of mouth propaganda.

f) It is also possible that no candidate of ours can not enter to that village. Heads of nests, too, from time to prepare the world for such a case, not to become discouraged.

g) To seek to take part in all meetings of political opponents in order to hear what is spoken there, and after leaving the village people can understand.

POINT 47. What will be the day of elections.

a) All heads of nests in a village, with all their people, young and old, gather together and go to the polling station building with the flag and made the sign board and painted black.
b) They will seek to have beforehand a good tactic set, so whoever you to prevent them from voting, be rejected and forced to settle.

c) In the event that many will not be enough in common that will be enclosed by other people sneak up to the station. And if they see that persecution is great, then all put their mark in the chest and the government will say that they have passed the government will go to vote, and in the booth, where only God sees them, will vote with the Legion.

During this struggle, heads the nest will be the fullest possible harmony and discipline, obeying orders from either the center or the county or the Legion garrison or higher nests.

Before leaving the voting at the last meeting of the nest, all heads of nests with Legionnaires will pray that before any battle.
PART VIII - A

In what direction should be a spiritual leader of his people litter education.

POINT 48. How is a Legionnaire.

When a Legionnaire is submitted to a superior officer or the head of the Legion, it stops at a distance of three steps in the upright position, welcomes leading to heart and then raising his right hand to heaven and say it: I Legionnaire ... the nest .. ..

POINT 49. What should be in word and in writing a Legionnaire.

Legionnaire and in writing and speaking should be short, clear and precise. Chatter chatter democracy is long and confusing.

POINT 50. Legionnaire's clothing.

Legionnaire will be modestly dressed. He will not put price on luxurious clothes and bright anybody. He will despise the luxury considers it based on a spiritual inclination for frivolity, for toadyism, for săcăturism.

Today luxury man, if a thief is not belonging to one of the many forms of theft, in any case is a dull country which slaps endless misery.

Legionnaire will not weigh a man in coat and will not distinguish between a poor man, bad clothes and good clothes. Legionnaire man will weigh what you have under your coat, ie his soul.

I'm torn clothes that hide underneath the gold treasure in my heart!

POINT 51. Legionnaire and handling public money.

Legionnaire that money itself and not belonging, which will handle the money dishonestly Legion or any man, one who will not give account, as promised, the money earned from the sale brochures, newspapers, etc. badges. will be removed forever from the Legion of the first case, any case would handle it.
In this organization, not only to grow than honest.

A small theft can not leave you no matter that ultimately it can only be great thieves seed, seed that is developing because of our tolerance, could crucify again by robbing the Romanian people and the country.

POINT 52. Sense of dignity

We've had a lack of human dignity. If you do not tip, unless you pay, do not you join the party. If you do not pay, do not drop papers from the municipality.

If you do not tip, you can not you get right. Tipping, bribery and embezzlement have abolished the Romanian nation's moral health.

Legionnaire will seek to abolish these manners and to revive the sense of human dignity. He will not give anyone anything, promise anything to anybody, and when you do someone a service, will not stoop to receive tips or bribes but will seize the throat briber.

POINT 53. School creative act.

Legionnaire must be a man of action. Through his work, through his work, he will build from scratch the new Romania.

POINT 54. Prayer as a decisive element of victory. Recourse to the ancestors.

Legionnaire believes in God and prays for victory Legion.

Let us not forget that we, the Romanian people, sit here on this earth by God's will and blessing of the Christian Church. Around the altars of churches, was gathered by thousands of times in times of bejenie and tribulation, the entire Romanian on this earth, women, children and elderly, with perfect consciousness of the last possible refuge. And today we stand ready to gather, the Romanian people around the altars, as in times of great danger, because kneeling, we might receive God's blessing.

Wars are won by those who were able to draw from the air of heaven, unseen world of mysterious forces and competition to provide these forces. Mysterious forces they are dead souls, the souls of our ancestors who were also once linked to land did for our furrows, who died defending this land and are now tied to it by remembering their living
here and we children, grandchildren and their grandchildren. But most of the souls of the dead is God.

Once these forces attracted, they come to your balance, protect you, give you courage, will and all the necessary elements to make your victory and defeat. Enter panic and terror in the enemies, it paralyzes activity. In the last analysis, victories are not dependent on material preparation, the material forces of the belligerents, but their power to ensure competition and spiritual powers. This is explained in our history, miraculous victories of power completely materially lower.

How to ensure competition of these forces?

1) By your action justice and morality;

2) The call often strongly to them. Call them, attract them with the power of your soul and they will come.

The power of attraction is greater, the higher call, prayer, is shared by as many.

Therefore, nest meetings that are held across the country Saturday evening, will be prayers and will urge all Legionnaires the next day, Sunday, to attend church.

Our patron is Saint Michael the Archangel. Icon's deserves to have in our homes, and in bad times to ask his help and He will never leave us.

POINT 55. Suffering School

The coming into this fight, you must know before that will be affected. After suffering always comes victory. Who will know how to suffer, he will win.

Therefore, we will get Legionnaires suffering gladly. Each suffering is a step toward salvation, to victory.

A grief he will not discourage Legion, but it will harden, it will harden the soul. Those who have suffered and will suffer yet, real heroes of the fight will be Legion. Homeland blessing will extend to them and their families.
PART IX - A

What course has come a Legionary Legionary in his life

Guard Life is beautiful. But the wealth is not beautiful, by the parties and luxurious life, but the crowd is nice dangers offered legionnaire, beautiful by all the noble sentiments linking Legionnaires across the country in fighting a holy brotherhood, beautiful uplifting by male attitude towards suffering.

When someone enters the Legion organization needs to know beforehand that he expected life, the way that it will pass.

The road will pass through the mountain of suffering, then through the forest with wild beasts and swamp of despair.

POINT 56. Mount suffering.

When a man joined Legion, with the longing for homeland in his heart, do not expect large table, but he should receive on his shoulders the yoke of our Saviour Jesus Christ: "Take my yoke upon you."

And the path begins to climb a mountain Legionary the world has called "the mountain of suffering."

At first it seems easy to climb. Later, climbing becomes more difficult, more suffering. The first beads of sweat begin to drip from the top of the Legionaries.

Then, an unclean spirit, slipped in among Legionnaires who climb, throw to first question: "Would not it be better to go back? Path Guard I got hard and begin the long and high mountain is no longer see the end. " Legionnaire But do not listen, go ahead and climb hard. For some time, always going up hill forever, begins to tire, it seems that the powers are starting to leave.

Lucky for him that meets a spring, clear as the heart of a friend. It cools, wash the eye and then take it up the hill again suffering.

Passes half and from there begins the mountain with no water, no grass, no shade, only stone and rock.
And he sees Legionnaire, says much I've racked up here, God help me to get up there. But the evil spirit in zvârle question: 'Is not it better to go back? Let your home away your craving. Do not see what to shoot if you love your country and the King, the People and the Earth? And then you earn here? It's better to keep quiet at home?'

On bare rock, he always gets endless faith. Now it's tired. Baths. Julește their hands and knees for the first time he sees his blood flowing. It stands as a brave and start again. He has less. But rock has become straight and angular, his blood flowing from his chest and rock crawling on relentless. 'Would not it be better to go back?' unclean voice is heard again. It seems that the thought remains. But suddenly she heard a voice shouting from the depths of thousands of centuries: 'Before the children! Do not leave!'

One last effort. and forehead above the crest reaches victorious warrior on the mountaintop suffering, and Romanian Christian soul, full of happiness and joy.

"Blessed shall you be when you chase all of you and say bad words against you."

"And they went rejoicing that they were able to be beaten for the name of Jesus."

Many Legionnaires receive climbing this mountain of grief. It would be a whole book to write their suffering.

POINT 57. Forest with wild beasts.

But imagine not wanting to become a Legionnaire at that tests are over here in the mountaintop suffering. and it is good that everyone knows from the start what it expects to know the way that it grabs.

Second test: Guard not take long and the path enters a forest that the world said "the forest with wild beasts."

From the forest to hear the cries of those wild beasts who are just waiting to get someone there to tear.

After suffering mountain, this is the second test that must pass Legionnaires. Who is fearful still there at the edge of the forest. Who is brave heart, come in, fight bravely and faced thousands of dangers about which they could write and write an entire book later. In this fight, not run away from danger legionnaire, not hiding behind trees. On the contrary, it is where the danger is greater. After he crossed the forest and went well, another test awaits him.

POINT 58. Swamp despair.
The path is lost and they must go through a swamp. This is called "swamp of despair" because the one who falls in it, so as to reach the other end, grabbed his despair. Some do not have the courage to join, begin to doubt of victory, that is too far, will not amount to victory. So many who have traveled through the forest and climbed the mountain beasts suffering, drowning in this swamp of despair. Others come and return, while others are drowned there. But do not lose hope of real legionnaires, they cross and this latest attempt to shore and get covered with glory.

POINT 59.

There at the end of three tough road test, then begin work the sweet, blessed the work of the foundation for the erection of the new Romania.

POINT 60.

Only one who has passed the three exams, over mountain suffering through the forest with wild beasts, and the quagmire of despair and managed, it is true Legionnaire.

Who has not gone through all this, it's not called the Iron Guard, although it is included in the organization has the badge and pay dues. Who had the ability to bypass them, forever and 3-4 years of life and knew Guard examination gave no pain, no examination and no examination of manhood faith can be a clever man, but it can be a Legionnaire.

Head Guard, when a person like Legionnaire not take any age, even after the popularity, ie how many people have about him, even after skill, but after these three tests:

POINT 61. 1) Legion is against those who are struggling, is kneaded to get wins without risk and without sacrifice - because they are small people - and eventual victories are fleeting as the foam of the sea: where there's risk, not glory.

POINT 62. 2) Legion is against those who, after victories, looking to climb as high as the risks and sacrifices of others.

POINT 63. 3) Legion is against those who, though struggling, are driven by a lower cell soul lust for gain, passivity, a benefit, creating a situation.
They win the victory, they begin to eat. Higher soul finds great satisfaction in the pleasure of fighting and sacrifice.
POINT 64. Legionnaire and politician.

Legionnaire and politician - man party - stand face to face.

Romania man party disbanded. Before him sat with his chest, legionnaire.

When man party, politician, peasant or citizen, entered the party, the first question he put it, was what I earn here? What benefit will shoot? Therefore, politicians win and the country is collapsing.

Legionnaire when he joined the Legion, said: "For me, I do not want anything", but wondered: "What can I give, what can I sacrifice for my country."

Legionnaire says a thousand years have suffered and died ancestors think of this country. A thousand years I've been waiting for and dreamed. Today, when God gave us a whole, instead of falling on his knees before her and worship as an icon, we steal a rip off.

In front of her, the legionnaire is presented not civil rights, but the sacred debt.

Politician's goal is to build a fortune, ours is to build our homeland and strong flowering. For her work, and we will build. For each Romanian she'll make a hero, ready to fight, ready to sacrifice, ready to die. (See "Iron Guard")

"For the hearts of the evil to come fully clean the house of God too, stretch my sword without mercy."

Archangel Michael

"Who knows how to die, there will never be a slave."

Seneca

POINT 65. Legionnaire and communist
The legionnaire is against communism and fight with all your might, because wherever you find this communist încui bat be exposed and slain.

The triumph of the communist movement in Romania would mean: the abolition of monarchy, abolition of the Church, the abolition of Family, the abolition of individual property and the abolition of freedom.

It means, in a word, our dispossession from what forms the moral patrimony of mankind and at the same time, the dispossession of any material assets in favor of the profiteers in the shadow of communism, which are Jews.

It is the communist movement gathered all our enemies, who have seen with good eyes can not see Greater Romania. (See "Iron Guard")

POINT 66. Legionnaire and Jew

Jewish problem, visible only in the north of Romania, invisible, but existing in the other half for the Romanian nation is the greatest danger it has known it since the beginning of history until today.

The legionnaire is only able to solve this problem, which the courage and diligence, which will resolve with resolution and other matters of state, which today make the same necessity. (See "Guard.")
What does a Legionnaire

POINT 67. That the state ideology based on the ancient ruins of the French Revolution. The world is no question of a new state. He can be very good and very bad. How will it be? As we will do it.

POINT 68. The new state but can not be based solely on theoretical concepts of constitutional law.

The new state requires as a first and essential work, a new type of man. A new state with old people unfortunately can not conceive.

The state is a simple garment that takes the body of the nation. We can make a new coat, luxury, expensive, but it will be useless if she will wear a body worn out, destroyed by gangrene moral and physical.

POINT 69. The new man, or a great nation requires renewed spiritual renewal, an entire people's great revolution of mind, ie a contradiction spiritual direction today, and a forceful offensive against this line.

POINT 70. In this new man will have to rise all the virtues of the human soul. All the qualities of our race. In this new man will be killed all the flaws and all tendencies to evil.

In this type of hero, warrior hero in effect, that can by fighting to assert their power, a hero in the social sense: unable to exploit labor victory after another, the hero of the work: the giant man-made for his country, must to be focused all better able to gather thousands of years during the Romanian people.

We expect this man, this hero, this giant.

He will be based on the new state, Romania tomorrow.

Legion, before being a political movement, theoretical, financial, economic, etc.. formula, is a spiritual school where if you get a man at the other end will be a hero to emerge.
POINT 71. This great renewal of the Romanian nation is likely to come?

Next. An all feel. After a long night for centuries, today between the same borders, the Romanian people, waiting for the sunrise, waiting for the clock's resurrection as a nation. Is it possible that millennial struggles to stop at a mere matter of form: a state union of all Romanians?

Do not you feel the seething depths as great revival of the Romanian people?

POINT 72. In this resurrection will be a tremendous part in Youth. On her name she intended to play on the stage of history. Old people do not understand us? We understand the sacred call of destiny that only we can hear it, but we understand it, because it is addressed only to us.

POINT 73. Laws, states of siege, bayonets, to stop the destiny of a nation did not exist, and there will not exist.

POINT 74. This great resurrection, by itself, create a new offensive to people in all areas. The offensive helped and supported by law, will restore the rights of the Romanian who was stripped of his year by year, in a thousand years by injustice and violence.

Paragraph 74 bis. Receiving the Head Guard.

In any locality, head of the Legion will always be received and accompanied by line Take wounded Legionnaires Legionnaires who have suffered persecution in the second line fighters Legionnaires in line III, Friends of the Legion of IV line.

Various commanders will arrange legionaries legionary world always in the order above.
PART XII - the

Circular F.

POINT 75. Legionnaires parliamentary regime.

Senate and Assembly of Heads of political Guard units, fixed on the day of January 5, 1933 in Focsani, the parliamentary regime Guard. This regime was applied and Head of the Legion, in his first parliament and was applied to the four lawmakers.

I. Per diems

1) are MPs because MPs Legion and the sacrificial material and moral efforts to persuade him of all the Legionnaires in the country.

2) Parliamentary daily allowance does not belong. It belongs to the Legion, she will give each MP is necessary for a modest existence.

Because it is not right for lawmakers to create a better financial situation, while all his comrades take a life increasingly difficult. What picture would be morally despicable, if some of us have to cram all sorts of goodies, clothes and shoes, we wear or wife in luxury, while others of us, wounded after the battle, would live a life of heartbreaking misery.

3) cash expenditures made do not come back, as he is not returning any person who has suffered health for the Legion, no man who died for her.

They are not required sacrifices and sacrifice back.

Dogma Guard tells us the amount of sacrifices made, determines the victory. Our glory is the glory of sacrifice we make.

4) There is a goal, a goal which is to be parliament: we must go forward to victory. As parliamentarians, we can not prepare to win. Therefore, funds from the Legion of daylight will provide the organization with everything he deserves for fighting, newspapers, brochures, etc. cars.

In 1933, lawmakers had 10,000 lei per month the first two months, then 8,000 lei.
5) the management concept of the State Guard. It will not be able to live with this amount, alone, can live together with other lawmakers, the Guard barracks.

That will be the next parliament Legion. Leaders must lead the country in days of misery.

You can not slap a salary of 30,000 lei per month luxury, endless misery of the country.

In today's attitude of parliamentarians legionnaires preparing tomorrow and prove that it can be as one we ask.

II. Legionnaire Parliament no longer belongs

He will be at any time of day and night at the Legion. It is not possible to choose parliamentary and then leave to look for business, or be forever occupied with various other issues.

While I was given parliamentary weapon in hand, to shoot her. If they can not shoot, not take, and if I took it and I can not use the most useful for the Legion, then immediately give to someone who can use better.

A parliamentarian shall:

1) to speak in Parliament;

2) can move for conferences, organizing meetings, whenever he asked the head of the Legion.

Who loves the Legion, to think well at this point, when asked to hand weapon of parliamentary functions and use the victory to honor the Legion.

Candidates Doubling No. 1.

The Assembly also set, as proposed Head Guard, doubling the candidates, ie: if successful a list, will enter parliament heads the list for three months, after which he will resign and will take place No. 2. from the list. No. 2 will be fixed by the Centre and especially the intellectual classes of our Organization. An exception to this law counties
comprising the absolute majority. If a county is the absolute majority, lawmakers remain always succeed, do not change.

Advantages:

a) A legionary satisfaction and encouragement to the county chief that works.

b) the urgent need for organizations to be sent to Parliament the parliamentary fight seven elements.

c) Create and prepare a larger number of Guard personnel.

d) The possibility that a lawmaker, in a short activity, but intense, and worship to all the work of the Legion, without jeopardizing their family's situation occupations.

County heads, driven only by the desire of the Legion of total victory will explain the law and the candidates will take a written statement, in that they became aware of the "Circular F" and means to comply with its provisions.

Lawmakers legionnaires are in Bucharest, Str. Printing House No. 3.

Head Guard, Corneliu Codreanu

POINT 76. What is the committee of 1000.

To set up a Committee of 1000. Each member is obliged to give every 25 lei per month, or after his will, 50 lei for one year. The amount is to be used to pay rates on printing and to equip the organization with what he deserves. Today this Committee is disbanded. His role is played by 'Friends of Legionnaires', having the following committee: Dr. Cornelius Sumuleanu ProfessorUniv. Iasi, Str. Săulescu, Prof., Priest Sunday Ionescu Bucharest, Str. Prince Leon 4, Ms. Zoe I Sturza Bucharest, Str. Crețulescu, 8, Mrs. Mary Beiu Palade Bucharest, Av. Muntenescu 11, tel. 4.33.26.; Dr. Eugene Chirnoaga , Bucharest Polytechnic School Professor, Stephen Alley Arch Burcus 12 (Road), Dr. Ing Eugen Ionica Bucharest, Freemasons 7 phone.4.77.52, Gregory T. Coanda Str. Bolintineanu 5, tel. 4.33.03. Everyone likes and wants the Legion to help her become a member of the association, asking for information at the address above.

POINT 77. Central Cashier Guard is within the General Organization Cantacuzino Str. Gutenberg 3, Bucharest. For any questions, send money to this address.

79 POINT agents provocateurs

I go to various spy organizations. Some, agents from the police. Call them in to show them that you have nothing secret.

But if one is caught Legionnaires one that will sell for money and will become a traitor to the Legion, will be punished today, tomorrow, a year or more than two.

The biggest disgrace of our Organization is to find spies in our midst.

There are others who pose as Legionnaires and walk in from different organizations to steal, to request, or to collect money. Some of them fail to have in hand a letter or membership card. Examine it well. Give the hands of police.

The last time I learn that a police officer in May, not knowing what information to give the Legion, informed security that the Guard will shoot several prefects.

Another has concocted a secret code that were passed in the capital institutions.

We do not need the lock. This is an infamous invention. To invite all political. What can be said, say in the face, say loudly.

If you hear such infamies or will read papers written by the Jewish (as were two years ago published "The Truth", "Morning" and "fight" to know the first time that they are all sly machinations to which we go to court.

Eyes crying in the distance look
And expect mercy.

Our mountains golden gate

Woe to us and again we
Crabwise give back

And the days we cook.

For country and justice,
In a heart beat all of us.
Let us wake Romanian
And not to suffer.
That those who hate us
No human soul.

Come down to the valley
Let's stop-n by Enemy.
From the pane, the salt
And give him abroad.

Let's put sentinels
And under the sun and call out
And then I ascunsuri

Let those who do treason,

The needs and pain
Where are the growing number of power
And an enemy gets hurt.

Legionar

- Remember that moment that a Legionnaire Legionnaire head dress clothes, everyone else must listen.

Elements are in different villages that have done much for the Legion through work, sacrifice and devotion their souls elite who came to prominence in the struggle over Guard, showing the devotion, courage, dedication, discipline and unwavering faith. PART XIII - A

POINT 82. Brief History Legionnaire.

On June 24, 1927, Friday, the birth of St. John the Baptist, was founded on the initiative (Corneliu Codreanu, John I. Mota Gârneată Ilie, Radu Mironovici, comrades in all prisons), "Legion of the Archangel Michael", named after the icon of St. Archangel Michael, located on the left door of the church in prison Văcărești icon I had a protector in all prisons in all our struggles, all the clocks in our suffering.

We were so few and so poor that we have not only been the target of irony arrows to others, but we ourselves terrified our poverty. Faith but we lost it for a moment.

I never had any second of doubt. It seems that God has gathered us on purpose so poor as to show that victory did not matter Guard had no role. The first time I had a clear vision of final victory and I take full responsibility of driving. Since then I have gone through difficulties, many dangers and risks, but this vision of victory not left me any second.

The first day we followed the current Legionnaires (reading their strong faith in the same eye) Hristache Solomon, Al. Ventonic, Niculai However, Ion Banea, Clime Eng, Eng Blănaru Victor Silaghi, Jean Bordeianu, Dumitru Iffrim, Andrei Ionescu, Popescu Mile Spiru Peceli Gh Potolea, etc. and the former patronage Gen.Dr. Macridescu.

On 1 August 1927 is "ancestral lands" in printing "Liberty" on Drastic, with the great help of Father John Mota, followed by F. d. young C. Focsani, with Trajan cart and Chirulescu and F. d. V.C. Tocu the Danube, then Pamphylia Ciolac mother, father Antohi Hesychius, Sebastian Erhan, Dânileanu.

On February 19, 1928, two months after efforts to persuade him, buy truck named "Deer Legion (234,000 lei). In summer, maintenance truck movement and pay rates, work at the brickyard (120,000 bricks) and gardening (one hectare) in Cuzist mocked every day. Then we trade vegetables from our garden leading to the truck and sell them to monasteries: agape, Văratec. Continue silent movement.
On December 15, 1929, the first political meeting Legion, and then T-Beresti Horincea Valley, Jud. Covurlui. Fighters appear in November: Antohi Tanase, Cristian Dumitru, V. and N. Bogatu, Chiculita, bagua, Hasan, Bourceanu, then Foltesti, Pralea family.

On December 25, 1929. Ludos Turda, with Amos Nechita, Victor Moga Colceri, Damian, etc.. Amancei Banica.

On January 27 and February 3, 1930 Cahul large gatherings. Intervenes and Mr. Ioan Codreanu, Stefan Moraru, Santa Casa, Garnet, Trifan Vlahu (dead), etc..

Zissu, great owner, Bucharest, Spiru Peceli, com invalid, Galati, John Butnaru, owner Iași Stefaniu kiss, owner. To be complete until the number 100.

January 1, 1931, arrest of Corneliu Codreanu, Bane, however, Amos. Pay after 77 days of arrest by the Court, Court of Appeal, Cassation.

June 1, 1931, for the first time participate in elections in 17 counties. We get 34,000 votes. Fall.

On 31 August, Neamt partial choice. Help Nuțu Esanu. Legionnaires beat all parties in Romania with 11,000 votes.

On April 27, 1932, election Tutova partial. For the second time, after heavy fighting, but glorious, victorious Legionnaires all parties in Romania.

On July 17, 1932, general election. Legionnaires fight in 36 counties, receiving 79,000 votes, 4 seats.

Legionnaires Members of Parliament stand silent measured. Fight for the scope of the Organization in the country.

Legionnaire current increases. 17 sheets possess circulation of 35,000, a printing house, 2 cars. On the threshold of buying three more.

Go forward with confidence in these difficult times, the bright destiny of our motherland, discover the face of all the sacrifices they have made over a thousand legionaries.

POINT 83. FIRST COVENANT Guard.
On the morning of November 8, 1927, we gathered at our headquarters in Iasi, and several all Legionnaires who have labored to come from elsewhere.

Not many, but strong by our unswerving faith in God and His support, strong in our determination and stubbornness to stand firm in the middle of all storms, strong by our complete dissolution of all that is earthly, which is manifested by the desire, liking the way a brave break with the land, because the Romanian people and serving the cause of the cross.

This is the mark of the covenant hour waiting eagerly for cheerful to form the first assault wave of the Legion. And anyone can imagine that there may be another note, when among us, dressed in white as in the times of plague, were gathered together, Ion I. Mota, Elijah Gârneatâ, Mironov and Corneliu Radu Georgescu, who raid Prison series, wore on their shoulders the whole weight of the national movement for 5 years.

Prayer.

At 10 I went all in national costume, with hat, with large swastika in his heart, the column of marching, the direction of St. Spyridon. There he officiated a memorial prayer for the souls Stephen Prince, Prince of Moldavia, Michael the Brave, Ion Mircea Voda, Horia Crisan Hen and Avram Iancu, Mr. Tudor,

King Ferdinand and "in commemoration of all the rulers and soldiers who fell on the fields of battle to defend the Romanian land against enemy invasions."

Submission solemnity of the Covenant.

In march, hymn singing Legion, we returned to the home. There was tears in her solemn covenant of the former legionnaire.

Ancestral lands

This began by mixing solemnity peasants brought from the grave He said the Brave in Turda, the dust of Moldova, from Războieni, where Stephen the Great was the hardest battle you and all the places where blood was mixed in fierce ancestors sanctifying it with the dust of battle. When you open up the package with the dust, before pouring on the table, read the letter from the person who brought or sent.
Peasants in Turda. (Letter). Brothers! We ship to dust you ask me. On the origin, I assure you, as I raised it personally on the grave He said the Brave, I brought her and wrapped it).

Turda on September 18. 1927.

Isaac Mocanu, professor at lic. Turda

FROM TARAN RAZBOIENI (Letter). Corneliu Georgescu undersigned, a lawyer, I was personally Războieni (Judges German) and got down beside the monument erected on the battle in which 10,000 soldiers were killed by Stefan cel Mare's.

What history tells about the battle of Războieni (1476): Stephen raised the battle on a church whose inscription says: "In his powerful 7984 Raised Mohammed Turkish Emperor with all his power and Prince Basarab, the whole country and Basarabesca have reached what they say here at the White River ... major war where we did with them in the month of July 26 and will of God were overcome by pagans and Christians there fell a great multitude of soldiers Moldova. " (History of Romanians Floru p. 184 -185).

He then brought his cast peasants Sarmisegetuza (Letter). Disclaimer: The undersigned attest that on October 17. 1927, I visited the fort excavations Costesti Sarmisegetuza the city and took land here in various parts of the city and especially from one of the rooms unearthed and burned during the siege, for which reason clods are red, symbolizing the blood shed there in abundance. This fort was commanded by his brother's fall into the hands of Decebal and Roman defense system deployed Sarmisegetuza then finally fell, moral, unequal treatment hurts more.

Ion I. Mota, Corneliu Georgescu

What history tells about his struggle Decebal (History of Romanians Floru p. 38-39): "Despair and anger, hatred and cruelty Dacians united with courage, defending the motherland and land conqueror not only let him pile of ashes and ruins. On Trajan's Column as I see women torturing prisoners Dacian Romans. Some keep them bound hand and foot, naked and burned her with lit flares.

The interpretation of the reliefs on the Column of Trajan, that luck war wavered between Dacians and Romans, until the art, science and the number prevailed.

King (Decebal) crept on some mountain path and scattered bands to add to pursue the fight to the end, when most leading his subjects, primary, preferred to die in the capital
that was not theirs. Gathered around a large bottle of poison, they chose death instead of life without freedom.

And he tries again luck armies until surrounded on all sides and ready to fall with two sons in the hands of hunters Romans, is pierced with his sword, leaving a corpse winners ..."

The Calugareni peasants. It was then poured over the dirt Calugareni, where Michael the Brave rushed himself astride a white horse among the Turks, with hatchet in hand, smashing them and putting them army on the run. Here at Calugareni, was the greatest victory of Michael over the Turks. (Letter): "I went by train to Bravu and there with a cart about 15 km through the forest, I had great support from the priest Calugareni Lawrence, which led me to the battle, the hill as they say. From there I took the dust."

HIGH BRIDGE FROM TARAN (Letter) I took this ground near the village Căutălurești (High Bridge) County Vaslui, where was Stephen the Great's battle with the Turks.

Rotaru Sergeant, Reg. 25 Inf.

What writes history ...Stephen had a great army, like never tightly under Romanian flag, to King Charles, 40,000 Moldovans, almost all peasants. Turkish Army was 120,000. The battle was County Vaslui. Day of the fight, according to some sources, was January 6. 1475, Stephen did not specify, but says "next Epiphany." ICA has been the biggest victory of Stefan cel Mare. "Yet the battle was not a surprise, no gain without large losses, because the Turks have turned against Stephen has lost many Moldovans ... Yes, in a moment, the battle seemed lost without supervening time of Stephen, who jumped himself in the middle of the Turks and smash them wings by God's great power." On January 25. Stephen writes all princes, it was attacked by 120,000 Turks, aided by Basarab, but the Epiphany "I've overcome and I trampled all I went through my sword." Stephen was merciless as fate, cut, impaled, rejected the redemption no matter how big, what they looked poor in my country, if they are so rich? ...To thank God, with all soldiers victorious Stephen fasting three days on bread and water, as in the days legaseră invasion. Following days of fun then. (History of Romanians Floru p. 181 -182)
Peasants in Suceava fortress, Hotin and impurity. He then brought the dust from these cities and points of glory was shed on the Romanians and white table above the other peasants. Once you read this letter from Buda legionnaire who brought the dust with his own hand.

Horia dust on the place where he was pulled on the wheel.    Minor programmatic literature

   Summary Legion program is published in another book, give here some general guidelines:

   POINT 84. First Legion program point.

   If you asked someone to tell that oath FOR punished.

   A day after defeating Guard will be "EXCEPTIONAL COURT", which will be called before him and judge for treason:

   a) In all robbers of public money;

   b) To all those who received bribes facilitating business

   c) To all those breaking the fundamental laws of the country that persecuted, closed, hit the Legionaries or their families. Any operation would have the policeman to the minister, no one will escape this trial.

   Most have imagined that these men is their possession Romanian Country, that laws were made for them to step up and that we are hired on this estate, which to beat us back with a whip.

   Romanian nation, aware of her rights to start a new life by punishing LEGAL WORK.
This watch is wait and endure.

Without this moment of punishment, there can be no recovery in this country.

Heads of nests will be very detailed and accurate reports on all the sins committed them înaintându Head Guard.

POINT 85. SPEECH BY THE MESSAGE, head of the Legion in Parliament held by the Country. After Mon. Oh. the 3 December 1931.

Mr DEPUTY-Corneliu Z. Codreanu has the word:

Mr. President, Members gentlemen, I am the youngest of you and I represent a youthful movement. I stood here by my own power, without the help and support anyone. I think the current leaders of the Greater Romania will bother to listen to me and me as one who is representative of the younger generation, Generation troubled, spoken of as generation, generation martyred, I would say crucified. I think it is better than honored to have little room to hear our good will and since we think it best that leaders today know that it is striving, which are opinions, which is the political orientation of generation, which, with or without the your will, you must follow these banks tomorrow.

In any case, I would say at the outset that we are not a generation as we know you from a certain release. We do not pursue only to defend our sacred homeland, homeland threatened by storm blizzard, warm nest homeland of our fathers and those who come after us. And to fix the compass, in short, I say there is no generation of immoral, there is no one without God, nor a Republican or antiroyalist. Fix these points in God, Fatherland, King, Family, Property and Army, which guarantees the existence of the Romanian state.

DVG Ispir: For this you can be with us.

D. Corneliu Codreanu: Gentlemen Members of this generation our generation to pass as an anti-Semitic. I would like to know that I came to cry down the Jews, as I think anyone has done. But one thing I noticed, that whenever you put the question of Romanian nationalism, you've received with laughter and have transformed it from a problem that is an unparalleled tragedy in a humorous matter.

DVG Ispir: At least for this part of the Chamber, this is not exact.

Corneliu Z. Codreanu D-: I gentlemen, I have to put this issue in a few lines because they are the head of a small group and I must develop my viewpoints.

I was in Maramures, Maramures descălecătorilor is our cradle, the Moldovans - Maramures are the ancestors of Ștefan cel Mare, Prince of Moldavia. And there, at a
process that we had in Satu-Mare and who assisted Mr. Professor Catuneanu, came an old man with white hair and was testimony to the courts for what I'm telling you now: "We, Maramures, we boyar wine and we had our lands and our mountains. By 1847 we were masters. In 1848, when I was a kid, the first Jews arrived in our village."

And another thing here. I do not use the word Jew as an insult to someone. I tell them Jews, for so I think they are called and otherwise - I find it curious - is the only nation who escapes her own name, the name he has.

For me, this population, the land of my country - and please believe me everyone - when I have a conscience attack and that the firm that seeks place on our own territory for me, please believe me, it opened a mortal fight and do not burn my jokes or insult anyone. For me it is clear and precise: intelligent or unintelligent, or parasitic, moral or immoral, this population is a population hostile to the country here on earth. And I intend to fight against it with all the means that I will provide mind, and my Romanian law.

Well, gentlemen. And one old man told me: "Here, in 1848, came the first Jews, that our parents saw him torn and hungry, have mercy left to stand at the edge of our estates. Today, in 1930, we lost 60 of the 62 mountains. We, Romanians, we have only two mountains, the mountains and the remaining 60 are in the possession of Jews. Today, we have withdrawn and the poor and without bread sit on the edge of their estates."

Well this situation lies in Maramures and Bucovina, this situation lies in Moldova where our churches are closing, which is crumbling altars. And I ask you, all what comes out of a nation that is crumbling altars?

Our trade knees. Here, in ancient Barlad in Barlad that export goods to Poland under Stephen the Great, and export from White City to Constantinople and Alexandria, left us one Romanian Commercial manufacturing.

Well gentlemen., One can not neglect this problem and no one can say that it is not dominant policy issue of modern Romania. With us is committed exactly the same thing that made the North American Red skins. We find ourselves before a foreign invasion and we have every right and duty to defend our homeland. I'm not care who comes in and is - I find it curious that when enemies came with a gun to steal our land, we are all transfixed in the trenches, gun in hand, and today they changed the money and gun when they are ready with their money to buy our country, then there is no one to us to protest?

Here are gentlemen. how to ask this question.

You know very well that the North American Red skins have gradually disappeared before the Anglo-Saxon invasion. Today he regrets all over Europe and I regret that they were good people, but says: "what to do, others have been stronger!"
Gentlemen, I think with horror that at some point, Europe will have to cry and we ourselves and our posterity.

And in terms of our troubled Youth, which as I said was crucified for this idea, because I come here after two years of unjust imprisonment, well, I tell you gentlemen, what do you want your young that all drivers have been hit so far? Want to get our day in a bag on a stick and go to another country, in other countries, to earn our bread and find a haven of free national life? We do not ask too much. Do not ask only one thing: leave us here on this earth, under the blessing of the bones of our fathers.

Gentlemen, I am sorry that this response message is not seen nothing for us, not even a glimmer of hope and no concern of the leaders of this country on the question above.

Gentlemen, I'll pass on this issue and come back to another issue of great importance: the problem of poverty. I made this box a few pieces of bread and who are in the mountains of Maramures Neamt county to see what bread to eat Romanian Maramures and our Munteanul. Today, when people complain of overproduction of wheat, all assigned to the crisis that wheat is sold with a lion kg., This is what these people eat bread!

(D. MP-Corneliu Z. Codreanu Assembly presents a piece of bread.)

We need to gather the heart of pain and I think any people in Europe saw this picture of misery in which the Romanian nation should live our pity. I put these pieces of bread, wrapped and placed in the box on purpose, to see how the veneer of artificiality and how this mess dress Romanian civilization. I'll reluctantly make ministerial bench and Honor would ask the government to have it available for anyone to make jokes behind the burning of the Romanian people, first of all to see what he eats.

Gentlemen, in the face of this misery, which encompasses the entire country, we have to wonder: what is the government's defense system against this ever-increasing march of misery?

Gentlemen MPs, to me is clear, the government comes up with two theories:

1. Sentimental theory of sacrifice, and

2. The economic theory of conversion.

In the theory of sacrifice and I am and I'm one of those who admit, but I'll say here an immutable principle: neither you nor anyone else has the right to appeal to the poor man's money will not be honored until brought back into state coffers at the end of the thieves who stole money fleeced this country.

In the other theory, theory of conversion, are for her. But this is not a drug. The drug is one that kills the disease, ie the microbe.
Conversion is a breath of fresh air that the government manages Honor moribund economy.

Conversion project are and I will vote, but we say wait to see other solution and the solutions they choose Absolute heaven is fucking times today.

Gentlemen MPs, the third point on which I will say a few words, is the issue of parties and the issue of democracy.

Gentlemen MPs, almost all the main subject of discussion in this response message was: we are against the abolition of party or parties to end?

In this respect, I tell you my point of view! Who is to decide nedesființarea dissolution or parties? You can dissolve them or to set up? No! The one who has to decide is the people's land hungry and naked. At that time you will have to decide, people will see whether or not to be abolished. In any case we say that people do not love the political parties. This is precisely and you, in a democracy, you can not keep the state leadership against the will of the people. It is again clear.

There is still an issue. Said one: the parties are not born from an impromptu, they are the result of evolution. Yes, and I am for this theory and I apply the law of parties evolution. Parties and all things in this world are born, grow and die. I think that parties are not superior form of perfecției that have earned the right to immortality.

There is an issue of external nature. You see very well that the entire public opinion in Europe is going to extremes such as two millstones, they grind slowly all parties.

Gentlemen Members look to Europe. There are two powerful extremes: extreme right and extreme left, which is hardened at a time one of them will win. Well, I ask you, especially when all your time you've gone to the Europe and trembled at the first puff of wind: a Europe where one of extremes defeat, you'll be able to to resist the current that Europe?

With regard to our guidance, if the question to choose between these two extremes, we are those who believe that the sun rises not in Moscow but in Rome.

We believe that our parents, our ancestors, who brought us on this earth, their bones, at least from me in one thousand years, we send good advice, one good idea in our watches and painful.

In fact, gentlemen, the party: our generation - the outsiders - Notes:

1) That a political party is a limited liability company operating universal suffrage;

2) That all parties are democratic, universal suffrage because they use the same;
3) That the neglect of the country's interests and satisfying only the private interests of partisans, that democracy is irresponsible, lacks the power penalty, that all parties are felonies, are given face each other, no sanctions against its Ailor, because it lose against any opponent, because they have to turn their transgressions.

And in this matter let me draw your atențiunea only on fraud who have made since the war which all remained without penalty: Black spirits fraud 12 billion; fraud brass of the railway 900 million ; fish Soviet, Soviet galoshes, Neamt county forests, forests of Bukovina, etc.. and after a brief account, the amount of fraud that were committed in that country, since the war, reaching the figure of 50 billion.

Democracy seen from the outside gives the impression of a very complicated iniquity: conclusion: democracy is incapable of authority. And another thing - I'll serve you a question that may not have many like you - gentlemen, please let us be tolerant to harsh, uncompromising interested in everything, whether Romanian nation, be honest. I declare here that democracy is put at the service of national or international Jewish high finance.

Gentlemen, proof. I came here with a list that has upset you, but I tell you to not take it amiss because they can not keep silent on this issue, this is what Blank calls from the bank's portfolio.

Let me read to you - because everyone will find here. I got a list, maybe not full:

D. Brandsch, undersecretary of state, 111.000.

Carol D. Davilla 4,677,000.

D. Eug. Goga, Agricultural mortgages, 6.2 million lei.

Lahovary DN: No. because d. Davilla, due Peasant Bank. It is not the same, please rectify. (Switches, noise).

D. Corneliu Z. Codreanu: Well, gentlemen, do not say that it is rotten, it will pay, but borrowed money. (Switches)

Gentlemen, could pay or not or do not know, but I tell you one thing: there is an obligation that is someone who borrows money to finance such, it is to please the government, to support opposition and in any case not hit into it you need to be struck. (Applause on several banks).

million, and hear, I could not know precisely, that Mr. Argetoianu would be here with 19 million.

Voices from the majority of banks: is heard!

Corneliu Z. Codreanu D-: I tell you what I could find. (Switches, noise). There are others.

Gentlemen, I do not blame the money they were given tips, no! In a form and they took money and now there is to see what was done there, I have complete freedom to come and take action against the bank outright.

Members Gentlemen, if sacrifices are required to wipe out this country, we can not consent to the sacrifice that would be to do the cleaning bank Bank for the wedding that made it to Mr. Paris, where he spent as is heard 50 million lei, as for other things. (Exclamation, switches).

Gentlemen, therefore, we come up with some practical solutions bearing grade youth:

WE CALL introducing the death penalty solely for fraudulent manipulators of public money. (Applause on several banks).

DVG Ispir: Mr. Codreanu, you lend your d-bearer of the Christian and Christian ideas. I remember - I am a professor of theology - that support this idea is anti-Christian. (Applause).

Corneliu Z. Codreanu, D.: Professor Sir, let me tell you: when is the question to choose between the death, disappearance and that of my country and are good Christian thief, if not allow the thief to ruin my country and give me a lead to destruction (applause on several banks).

WE REQUEST review and seizure of assets who have stolen the poor country. (Cries of "Bravo!")

WE CALL criminal accountability of all politicians who will prove that they worked against the country, supporting private business uncorrected. (Applause on several banks).

WE CALL prevent future politicians who will prove that they worked against the country, supporting private business uncorrected. (Applause on several banks).

WE CALL prevent future politicians also part of the board of directors of various banks and businesses. (Applause on several banks)

WE CALL chase bands of ruthless exploiters who came to this earth to exploit the land and work our arms.
WE CALL declaring the territory of Romania as an inalienable and indefeasible property of the Romanian people.

A voice on the banks of the National Peasant Party: It is.

Corneliu Z. Codreanu, D.: The Romanian nation is not.

WE REQUEST reference to work of all election officials and establishing a single command, which is subject to a one mind and one soul in all Romanian breath.

If the country's leaders are currently blocked due to take whole Constitution or laws, then we believe to dissolve the Legislative bodies, to appeal and to call the Constituent Assembly, for the people to nominate that will be required to take all necessary measures to save Romania. (Applause on several banks).

POINT 86. STATEMENT BY THE MESSAGE Legion in Parliament held by the head of the country.

After Mon. Oh. in November 1933.

Therefore, we expect another system, another system, which will come after you, it will fall on it and set the weight of his sins.

He must meet the following requirements in order of urgency:

1) eliminate the expensive paid sterile discussions of democratic parliamentarism that never ever came to light and especially can not go heroic determination to face the difficult times of danger now.

2) To replace the command to assemble in one mănunchiu all disparate energies of the nation, now locked in fratricidal struggle, discipline them, to restore lost morale, to instill faith in the destiny of our nation and to Romanian pathways that lead to destiny.

3) To declare war on poverty and general poverty urging temperance work and the good, sending the force to work with all parasitic elements, which play the role of the drones in the beehive state, all the idlers, who keep the cafe table from morning till evening on plictisitii all that walking the streets, election agents from all municipalities, prefectures, ministries, democratic ideology finally willing to take cheap speeches.

4) To dismantle everything is riding on the country's weary body to răscolească, organize and stimulate the creative energies of all people.

5) To eradicate those guilty of dishonesty and confiscating their assets, to bring back to the last penny, the state treasury, the money stolen.
6) To go ahead the great multitudes of poor and for better or worse, eat the same bread and the same table that eats poor poor worker. For in these difficult times, moral misery, inequality of treatment hurts more than physical misery. Some live in luxury, with champagne and caviar and others have even polenta, under the democracy-loving people.

7) To make Roman law in his own country.

To heal deep wounds. To turn secular injustices that he suffered during the long foreign domination.

8) To protect Romania from the danger posed by ever-increasing invasion of the Jews.

9) failed to end their existence to the democratic state based on outdated ideology of the French Revolution.

To produce that memorable act of courage reformer, who threw himself completely and definitively false system abstractions of political philosophy of this revolution.

A great setting, and historical epoch in its place is the time to put the foundations of a new era. An age of giving back to the national situation of the nation its real meaning of natural society, some individuals of the same race, and not in the legal nationality of the citizen, which allows automatic conversion of foreign masses Romanian Naval us to conquer and oppressed.

10) rose from the ground up new ethnic national state based on the primacy of national culture, the primacy of family and working on corporate supremacy.

POINT 87. Program and soul.

I was away to carry out a full schedule. Lines are drawn large and well known (natural risk-see them stolen).

The programs are based on national realities and are realities that still are very much those changes from day to day.

A program may be a combination of theories gathered from the clouds. It must be based on facts that hurt, of our Romanian nation. There are wounds to be healed by whom. Search for programs?

They are on everybody's lips crowd. Better you search for people. For one night, anyone can make a program and not feel they need in the country. But people and who wills to perform. There are movements that have no program, they live in speculation of various
problems that arise in life. For example: usury. Devours it and then die. If it occurs before another prey.

There are others that have a program. There are others that have more than one program, a doctrine they have a religion. Soul is something of a higher order, which mysteriously gather thousands of people decide to create a new fate. If one program or doctrine serves its program with some interest, the Legionnaires are a great religion for people who are ever ready to sacrifice.

In this belief they will serve until the end.

However it would seem nice and full lupiștilor program, Peasants, liberals, you can be assured that no lupist is not ready to die for lupist program, no georgist to them and so on.

Therefore, I make less people gathered at the base of the great faith that you will not leave until his death.

Our Movement Guard has more than a high school spiritual character.

It tends to light unsuspected faith, it tends to transform, to revolutionize the Romanian soul.

Proclaim to all parties that evil, misery, ruin, we come to the soul.

The soul is a cardinal point on which it must be currently working. Individual soul and the soul crowd.

A lie is all new programs and social systems exhibited gorgeous people if a soul grinning shadow of thieves, the same lack of conscience order to perform the duty, the same spirit of treason against all that the Romanian, the same lust, the same act of waste and luxury.

Summon soul nation to a new life. Do not seek electoral success if they do not mean victory while organized forces of the soul renewed.

Programs like that? Do you think we can not dry up the swamps? We can capture energy from the mountains and electrify the country? Romanian cities can not lift? We can not do that our fields to produce fourfold? Rich on our land can not provide bread every Romanian? We can not make laws that ensure the proper functioning of a state facility near future and our national specificity? We can not make plans quinquenale? We will not be constructed here in the Carpathian homeland crown to shine as a beacon in the middle of Europe? expression and genius that is our Romanian? Can.

But the biggest mistake of many politicians was to be exposed to programs in detail before being placed in a position to implement them.
We have new programs in your pocket. They are constantly studying, but they kept for their time. We ask the world what you do? Tell funny that people can do more.

For now our program is:

1) To achieve power;

2) To handle such that force to overcome all adverse forces.

3), and programmatic measures to apply themselves.

We are legal ways. In any event, the details, either tactical or programmatic operations of the secret part of fighting forces.

POINT 88. The manifesto "ruin."

Ruin.

It is man's eyes and not see that this rich country has become a ruin. Peasant household ruin, ruined village (a handful of people upset that whine), common ruin, ruin county, widow mountains ruin, ruin fallow fields no longer bring anything poor plowman, the state budget ruin, ruin the country.

And on top of these ruins as you stretched Romanian territory, a gang of mise, a bunch of imbeciles, a shameless gang of robbers and palaces rose in defiance of the country, who groan of pain and suffering for slapping your Romanian peasant.

Never in the world has not seen a more accurate picture scandal, more painful and more obtrusive.

In addition to millions of households who are destroyed, over millions of poor souls who cry rises Robber mocking the palace of looters country.

Who is it?

Find it by cities alienated and you'll find. The former dodger from 1916. The hero of 100 km from the front or back of the traitor brothers and tare, is enriching the războiu, businessman, is the profiteers from the blood that thou hast shed drop by drop from your deep wounds.

When you're back in 1918, you saw him worshiped gras, beautifully dressed in rags and you, for then he has rented, and you fell into the dominion of the land which you created on the battlefields.
How would you have liked to get a poor country when Stere, sentenced to death for high treason and then pardoned, is head of the party in Romania when a Socor, condemned for treason, and degraded, is publisher and MP and Romanian political leadership? When so many are at the forefront of country's affairs dodger?

I raised a flag.

Against them, against those who have ruined the country, against bands of foreigners and aliens who have sucked bone marrow, we raised a flag.

When I left I asked the blessing under the shadow of soldiers who fell on the battlefield for Romania Mare and I appealed to all those who were alive after severe fighting.

Flag this Neamț defeated hosts vengeful daring politicians. Flag it was smashed to Tutova.

Flag this hallowed in two battles, we carry from one end to another of the country.

He exhorts the anguish of our adversaries and sticks.

We called the Legionnaires.

We, the ministers of this flag we have not linked together to steal the country we were not tied together as we gain our supporters, and give them bones to chew bones that country.

We have linked together to stay poor to grave, we impoverish those who are rich, but we tied to overcome. To overcome and to retaliate.

We stand ready to sacrifice all stand ready to die.

They are new Legionnaires.

Vain and wrong we have confused some villagers and townspeople, believing that we stand to them settled on juveniles and make them desire to give them land to eat it.

Well, no!

CZC

POINT 89. Towards new spirit bearers.

Legionary

Cuvântătorii old party, roam the villages again asking your help to be able to recover. Under their rule, the impoverished everywhere Romanism and knelt in front of alien prăpășit recently. Large joints of the country are deserted. Politicianizată our world, not
only sees to the interests of the party for whose victory sacrifices every day and every hour, our very future as a nation.

The collapse of the mountain forests veneticilor fit on hand.

Gemstones and Maramures moții heart forget all.

Romanian workers leave the thickening ranks of Communist Jews.

Romanian trade without protection, kneels in unequal fight with the stranger.

In frames of our glorious army, penetrates deeper and higher, thinner and corrupter of germ consciousness.

And heavy watches provide in the future. It will be called the big exam once international, who will defend the country's land and the glory of our flag?

Romanian peasant sells its product below cost. Misiții and we have increased flooding. The cafes are full of lenders and samsara. They are proliferating at the expense of labor. The people are predatory. The Romanians, embarrassed, reached the modern slave Jewish bankers.

Country divided into parties, which are tearing each other, is collapsing before our eyes.

Old party leadership is not leading a strong hand, and has no sense of direction nationalist oblăduire and encourage the Romanian element that keeps many centuries the country life on his shoulders.

Legionnaires,

Faced with this situation, and before it can be re-sentenced politics, I took a sword and we raised the flag again at the time.

He feels the air, more pronounced, the need for other moral principles of political life.

Despoliticianizarea country is a command of time.

Instead of the old parties is a need for renewal. Instead of aliens bent always parties, and encourage independence policy of Romanism supporter of the country.

Tell those who come back to grab your hand, that their time is over. "I destroyed them all cuvântătorii.

From now on only one voice will be heard, mysterious and inscrutable God: the call of the homeland. This voice to hear all your breath. Him to submit a single soul.
Romanian,

When voice and your wish will proclaim victory, Romania will revive. Will flourish. Peonies will bloom in it as your children. The alien will comply. The enemy is fear.

Soldiers of the Legion of St. Michael!

When you you are destined by God to build the new Romania, where the Dniester to the Tisza, the family invites you to receive the endless applause on the stage of history, your breasts burst of steel our cry of struggle and victory: Long live Romania Romanian!

Long live the Legion!

Corneliu Codreanu,

Head Guard

POINT 90. Manifesto Professor Cristescu (model manifest).

Romanian Vlaşca County!

A new movement and determined, guided by the creed of a Romanian tort actions, of sacrifice and honor the leadership of the state, he understood the call of the cry of pain and rebellion of a whole nation.

For this country deceived by a gang of predatory politicians and profiteers, threatened and humiliated in all her joints and intrăinaţii foreigners, the Legion comes today that a youth movement and momentum, enthusiasm and discipline ostăşească. Under the shield of our ancestral religion, called to struggle for the enthronement of a new life of honesty and justice.

WILL prevail!

Listen to the voice of mountain horn sounds,

And in you all about the troubled deep!

Raise your head and your school
You grew up in the old school
And within the army decided
For those who want to lose land
There were flocks of locusts pripășit
And you make boundaries more narrow
Since you are on some backwater in the mountains,
The realm, in the hills or the valleys sink
The field that stretches as far as the horizon is,
Do not hesitate and call listen.
The Legion are thousands of thousands
Men, young men of valor, even children
In the chest of us all
We also miss seethes:
Hot ancestral lands the river
Old yew and Ister
With all the endless treasures
It is only our future-n ...
Listen, are you really satisfied
That all the sacrifice of those who died
On the front as the wind was wasted fumu?
I heart you endure it,
To see how your family dies in poverty
While foreigners - brought by the wind -
Masters in everything bring gold and silver
Lăfăiesc to be fed well-n neck
The fair palaces
Naughty lit?
Romanian school you right now,
And in line with new stepping-n Legion
And you will feel the thrill of holy judgments
And the blessing of the graves!

ASSOCIATION 'FRIENDS legionnaires'

Statutes

Here are the statutes of the association:

"I took the initiative to establish a link between those who did not become Legionnaires.

"There are many souls who have been with this movement, but they could not qualify either because they were state officials, private businesses, either because they were merchants or industrialists barraged with many difficulties in their jobs, either that are so constructed that the soul could not fully integrate the spirituality of this movement impairment.

However, there are a large part of Romanian in this country who recognize that their young people deserve to be sent to a hand that they freeze on the front fighting for the country.

"Look all parties: countries like Italy, Belgium and Germany raised to new life and cut his victory road victory in November under the sun.

"Only we, but we Romanians stand. We look indifferent to all our youth leap and believe in all the calumnies which cast upon him.

"One question we rend our hearts: we Be we, this generation, doomed only defeat? Did not we can also give the world a great victory Romanian?

"These thoughts led us to orient ourselves to a discreet way to help the youth association called' Friends of Legionnaires'.

JUDGEMENT OF DRIVING IRON GUARD
We presented the Iron Guard leadership, where we were given the following reply:

"We accept your proposal with great joy to us. It will be helpful for victory."

"This proposal, however, resolve and another and another problem.

"Around us we have friends and enemies indifferent. We consider a disaster, if tomorrow, when the bugle will sound victory over Romanian territory, those who were true friends of the nation would be thrown aside with contempt, and those who have hostile or indifferent to the surrounding state victory would have to be burdened with undeserved rewards to heroes of art. This sad picture follows us for a long time. For if the day after his victory would happen, the whole work would smash Guard.

"Therefore, your proposal is saving: on it we will know who we were friends watches harsh on those who stood indifferent to all attempts of this generation and those who hated us, feud- and the future.

"Do not follow a vengeance but we feel the need to create a sense of responsibility among the Romanian nation.

Everyone will be aware that his attitude will respond. No nation can live in a world ordered on all opinions, all attitudes, all change and all the compromises. "

THOSE WHO CAN NOT GET

Therefore, the leadership Guard approved this initiative, but made three conditions:

- We get these Christian friends of any party, any group, any social category. We are not interested in any class, any political group they belong and they can remain in the future.

- Not to receive friendship:

  A) those who attacked us or had an attitude disgraceful thing bordering meanness.

  B) To those who have proven relationships with us or others to be people without character.

  C) those that were incorrect, to earn their fortunes in dirty or ownership of public money.

So anyone can enter this world of "Friends of Legionnaires' in addition to these three categories.
